Enhanced Care for High-Risk Patients More Susceptible to COVID-19

Mevesi has reports you can run to better serve high-risk patients. With every click, your pharmacy is creating data. It's time to know what you've got.

You can proactively improve patient care. Take advantage of data that can identify seniors and others who have underlying medical conditions that can cause serious complications from COVID-19.*

Refill Requests, Refill Too Soon
Use med sync to efficiently fill all medications for a patient at one time or in groups to minimize patient trips for pick up or multiple deliveries.

High-Risk Patients
Use therapeutic classes to determine high-risk patients and put PMS-specific reports together to capture the details available in your pharmacy's data.

Therapeutic Class:

- Diabetic
- Heart Disease
- Lung Disease

High-Risk:

- High-Risk Medications (Beers List)
- Patient Age

Drug Supply Management and Inventory Control
Use reports to ensure sufficient orders from drug wholesalers to fill upcoming medications.

"You name it, Mevesi can help you identify it. In less than five minutes you can build a dashboard that shows data across all systems. This tool allows us to identify anything that could be slowing financial progress. We have identified new avenues of potential revenue and productivity."

Rusty Lee, Senior Vice President, Ancillary Services, Community Health Services of Georgia

High Risk Meds: Beers List

High Risk Pt: Heart Disease-Diabetic-Lung

Refills Due: Heart Disease-Diabetic-Lung

Refills Past Due: Heart Disease-Diabetic-Lung

Report Examples

High-Risk Patient

Diabetic, Heart Disease, Lung Disease – This report is a distinct count of patients who are on high-risk medication therapies.

High Risk Pt: Heart Disease-Diabetic-Lung

Start Date: 01/01/2016 End Date: 03/27/2020 Date Filter: Date Filled | Export:

| Pt. Last Name	Pt. First Name	Pt. Age	Total High Risk RX...	Pt. City	Pt. Zip	Store Name
FELLOW	OLD	109	14	INDIANAPOLIS	46240	Tyler's Pharmacy
FORD	GERALD	99	11	GRAND RAPIDS	46888	Mike's Pharmacy
TEST	TEST	66	9	KANSAS CITY	64139	Tyler's Pharmacy
VERONICA	VERONICA	89	6	INDIANAPOLIS	12345	Tyler's Pharmacy

High-Risk Medications: Beers List

This report identifies patients over 64 years of age and the number of medications they are on, which are listed as high risk by the American Geriatrics Society. These medications are listed as a potential to avoid or consider with caution in older adults.
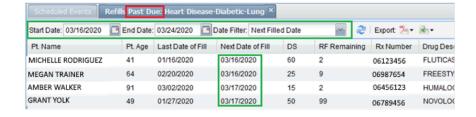

High Risk Meds: Beers List

Start Date: 03/01/2020 End Date: 03/25/2020 Date Filter: Date Filled | Export:

Pt. Name	Total High Risk RX...	Pt. Age	Pt. City	Pt. Zip	Store Name
JOHN BLANK	8	70	SEVIERVILLE	37862	EDGE PHARMACY A
ELVIS BLUE	8	88	MORRISTOWN	37813	CARE PHARMACY B
JAMES CARTER	8	71	OAK RIDGE	37830	EDGE PHARMACY A
TIMOTHY GRANT	7	86	NASHVILLE	37206	EDGE PHARMACY C

Refills Due

Diabetic, Heart Disease, Lung Disease – This report is a list of patients and prescriptions that the CDC list as high risk for COVID-19. Forecast and target patients with refills due in the upcoming week in order to coordinate fills and deliveries.

Refills Due: Heart Disease-Diabetic-Lung

Start Date: 03/30/2020 End Date: 04/05/2020 Date Filter: Next Filled Date | Export:

Pt. Name	Pt. Age	Last Date of Fill	Next Date of Fill	DS ▾	RF Remaining	Rx Number	Drug Des...
MICHELLE RODRIGUEZ	67	12/03/2019	03/30/2020	118	98	06123456	ROBAFE
MEGAN TRAINER	13	01/31/2020	03/31/2020	60	1	06987654	FLUTICA
AMBER WALKER	56	02/03/2020	04/03/2020	60	11	06456123	FLOVENT
GRANT YOLK	41	02/12/2020	04/02/2020	50	17	06789456	NOVOLO

Refills Past Due

Diabetic, Heart Disease, Lung Disease – This report is a list of patients and prescriptions that the CDC list as high risk for COVID-19. Backdate the report to target patients who have not filled their medications yet and could be leaving themselves more vulnerable to complications from COVID-19.

Refills Past Due: Heart Disease-Diabetic-Lung

Start Date: 03/16/2020 End Date: 03/24/2020 Date Filter: Next Filled Date | Export:

Pt. Name	Pt. Age	Last Date of Fill	Next Date of Fill	DS	RF Remaining	Rx Number	Drug Des...
MICHELLE RODRIGUEZ	41	01/16/2020	03/16/2020	60	2	06123456	FLUTICAS
MEGAN TRAINER	64	02/20/2020	03/16/2020	25	9	06987654	FREESTY
AMBER WALKER	91	03/02/2020	03/17/2020	15	2	06456123	HUMALO
GRANT YOLK	49	01/27/2020	03/17/2020	50	99	06789456	NOVOLO

Dashboards, Scorecards, and Report (Canned) Filters

These filters are based on therapeutic class or drug name depending on pharmacy system. They are available for use on all canned reports.

For example, the Synchronization Report – use a filter to view patients and sync refills so patients or deliveries are made without multiple trips.

Report: All Records

	TC: Diabetic			
Avg Cop	TC: Heart Disease		Rev/Pt	Margi
$11	TC: Heart Disease-Diabetic-Lung	5	$172.47	0.039
$9	TC: Lung Disease		$135.01	0.049
$13	High Risk Meds: Beers List		$129.15	0.049
